## Privacy Policy

This Privacy Policy applies to visitors to and Users of all the services ("Services") rendered by Lucideus, its subsidiaries and affiliates via Lucideus.com ("Site") or UnHack ("app") or un-hack.me ("application site") or the necessary software applications ("Software") used in connection with the Services to Users ("User" or "you") of the Services. The Privacy Policy is incorporated into, and is subject to the [Terms](#). As such, it may be revised from time to time. At any time, the then-current version of the Terms can be found on the site at [www.un-hack.me/terms](http://www.un-hack.me/terms).

Lucideus is among other regulation subject to the Indian IT Act on Processing of Personal Data. In this Privacy Policy personal data is referred to as personal information. All personal information are managed and controlled by Lucideus at its registered office C-17, SDA, Hauz Khas, New Delhi - 110016.

BY USING THE SITE AND SERVICES, YOU AGREE TO THE PRIVACY POLICY AND ALL REVISIONS THEREOF. IF YOU DO NOT AGREE – DO NOT USE THE SITE OR SERVICES.

## We Respect Your Privacy

We respect your privacy and integrity and strive to take the best care when we collect, store, use and protect your personal information according to the Terms and this Privacy Policy.

### 1. Collecting Personal Information

In order for us to provide you the Services we ask for your personal information when you sign up. Such personal information include your name and your android ID. If you choose to sign up via an external sign up feature made available by Lucideus, some of the listed personal information will be transferred to Lucideus from your designated sign up account. If you subscribe to additional Services subject to charges, Lucideus will also require credit card or PayPal information from you.

When you use the services additional personal information may automatically or voluntarily be collected from you. Some information is dependent on your devices and may require additional hardware. Further personal information related to you may be collected from [User Generated Content](#) either generated by you or by other users.

We encourage you to at all times keep your personal information updated.

If you provide us with personal information on a third party, for instance if you invite your friends to join you on the UnHack community, we will only use such third-party data for the specific purpose (delivering the invitation). We will not contact the third party further unless the third party contacts us.

### 2. Sharing Personal Information and User Generated Content

#### ***You consent to sharing to the UnHack Community***

You agree and acknowledge, that we may disclose to and make publicly available on the Site or via the Services your User Generated Content, including the personal information. However any payment information will per default not be disclosed or made publicly available by Lucideus. Any

posting and/or auto-posting of your activities and other User Generated Content to connected partners (e.g. Facebook, Twitter etc.) requires your active consent.

#### ***Changing your account settings***

By default, your privacy settings are set as PRIVATE. Please note that the default settings for all users include public real-time tracking of your installed applications. By using the services without changing these default settings, you explicitly consent to this sharing and use of the services is, as always, at your own risk. Application uninstallation shall not limit Lucideus's right to store information if required by law, for administrative purposes, court order or similar.

#### ***Transfer of personal information is subject to your consent***

We will only with your consent disclose and share your identifiable personal information with business partners, third parties or other individuals outside of the UnHack community. However, we may need to transfer your personal information to our service providers in order to perform the services to you and conduct our business; for example the handling of credit card processing, shipping, data management, email distribution, market research, information analysis, and promotions management etc. The transfer will be secure and the data recipient shall accrue no proprietary rights to your personal information outside the purpose of the transfer. Further, disclosure of your information may occur when it is required to comply with law, court order or similar.

#### ***Transfer of de-identifiable personal information***

We may share aggregated or in other ways de-identifiable personal information publicly and with our business partners, e.g. advertisers, universities, media or connected sites. By using the Service without being a Premium subscriber, you explicitly consent to the sharing of de-identifiable personal information like age, gender, sports and precise location data with our advertising partners, including but not necessarily limited to Google.

#### ***Business Transfer***

Your personal information may be transferred if UnHack or Lucideus is involved in a merger, acquisition or asset sale in whole or in part. However, besides from the actual transfer of ownership, we will continue to ensure the confidentiality of any personal information. In case of the aforementioned transactions occurs we will provide notice to the affected users.

### **3. Data Protection and Data Controller**

In order to protect your personal data and all other information we have stored, we and our data centre service providers have implemented various security measures whereby your personal data is stored in a secure environment and treated confidentially and personal data is only accessible by a limited number of employees at Lucideus, who all have special access rights and are required to keep the information confidential.

#### ***Right of access to data***

All personal information and User Generated Content are stored and processed by Lucideus on servers controlled and monitored by Lucideus. You may contact us at [unhack@lucideus.com](mailto:unhack@lucideus.com) to get information on what personal information are processed in relation to you and if relevant have them erased or rectified.
